

Douglas Laboratories® offers QÜELL® Fish Oil, a suite of ultra-pure omega-3 fish oils that provides a concentrated triglyceride form of EPA and DHA in a fish gelatin softgel or soft chew. A growing body of scientific evidence supports the triglyceride (or re-esterified triglyceride) form of these fatty acids as exhibiting greater absorption (compared to the ethyl ester form), significantly increasing the index of EPA and DHA in the blood. QÜELL® Fish Oil softgels utilize supercritical CO₂ extraction technology, yielding oil that is protected from oxidation, microbiological contamination, solvent residues and isomer formation.

Ultra Concentration & Ultra Purity

Formulations	Features	Omega-3 Dosage Per Serving	Benefits†	Daily Dose Suggestion
QÜELL® Fish Oil DHA Soft Chews	5:1 ratio of DHA: EPA in a great-tasting, lemon-lime-flavored soft chew	EPA 50 mg DHA 250 mg	<ul style="list-style-type: none"> • Cognitive Health • Children’s Health 	1-2 soft chews
