

Vegetarian Enzyme

Digestive enzymes

DESCRIPTION

Vegetarian Enzyme tablets, provided by Douglas Laboratories®, are dietary supplements of vegetable-source enzymes (suitable for vegetarians) which are specific for the digestion of starches, proteins, fats, and cellulose, a dietary fiber.

FUNCTIONS

The digestive system breaks down a nutrient that is consumed as food, converting them into small molecules that cells, tissues and organs use as energy and for metabolic functions in the body. Digestive enzymes are crucial to the body's absorption and optimal utilization of food and its nutrients. The normal aging process and related health conditions can decrease the production of digestive enzymes, resulting in gastrointestinal distress. Plant enzymes are functional over a wide range of pH levels, making them ideal for aiding digestive function in the stomach and small intestine.† Vegetarian Enzyme provides catalytically active enzymes specific for the digestion of starches, proteins, fats, and cellulose. †

INDICATIONS

Vegetarian Enzyme tablets may be a useful nutritional adjunct for vegetarians who wish to supplement their diets with digestive enzymes that do not come from animals.

FORMULA (#7048)

Two Tablets Contains:

Vegetarian Enzyme

Concentrate450 mg

Supplying:

Amylase.....4,200 D.U.¹

Protease250 SAPU²

Lipase2,400 L.U.³

Cellulase.....300 C.U.⁴

This product contains NO animal products.

1 Alpha Amylase Dextrinizing Unit

2 Spectrophotometric Acid Protease Unit

3 Lipase Unit

4 Cellulase Unit

SUGGESTED USE

Adults take 2 tablets with each meal or as directed by a healthcare professional.

SIDE EFFECTS

No adverse side effects have been reported.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
